

8/24/2023

To whom it may concern:

It is with great pleasure that I write this letter of recommendation on behalf of Ashley Bishop and Elite Hail Masters. Ashley came to us in May 2023 and ensured us that the major damage we suffered from a massive hailstorm could be fixed. We gave him the opportunity while many companies were still vying for our services. His team came in and they performed at an elite level. Many times, I referred to them as "magicians" and truly meant it. They repaired some of the most difficult damaged automobiles and we could not have been more pleased with the results. He did exactly what he promised, sending a large team in and slowly phased them out as the work was completed. This company did not leave until we reached 100% satisfaction with the work being finished and their services were no longer needed.

In closing, Mr Bishop will definitely be our first call in the event that we suffer another storm that requires paintless dent repair.

Sincerely,

Brad Bender
